Performance Specs. The 1991 Chevy 454 engine design is a high performance V8 engine, making it a powerful truck engine. The 7.4-liter engine uses fuel injection for maximum performance, and gasoline is the fuel of choice for this particular engine. Most new 454 engines from this year were released with a seven-year or 100,000-mile warranty, and these engines are also popular with many truck fans because they lend themselves to enhancements fairly easily for those people who need a little ...
