[\*Fourth Party Logistics Is It\*](#)

*Fourth party logistic service providers often have no means of transport and warehouses (non-asset based logistics). The fourth party logistic role demands intense involvement from the service supplier in the client's business activities. After all, not only does the latter outsource the execution but also the monitoring of the logistic processes. The short-term thinking with collaboration ...*

*Fourth-Party Logistics Advantages. Choosing a 3PL vs. a 4PL can be a complicated decision that depends on the complexity of your supply chain and your company's strategic goals. A 3PL relationship works well when the organization has a solid, high-performance supply chain strategy in place and requires support to execute the plan. Working with a 3PL will typically require a high level of ...*

[\*Third-party logistics - Wikipedia\*](#)

*The term 4PL (fourth-party logistics) often pops up in discussions about 3PL. In brief, when 3PL providers outsource any of their own contracted services, they become a 4PL provider. In the example of a book publisher, if the fulfillment center subcontracts out its shrink-wrapping and freight weighing to other companies, then the center acts a 4PL provider. Some observers view 3PLs providers ...*

[\*Aditro Logistics\*](#)

*A fourth-party logistics (4PL) organization provides many of the same services as a 3PL, but there are some important differences. For starters, 4PLs have a much more broadly defined role compared with a 3PL. According to the Council of Supply Chain Management Professionals (CSCMP), a 4PL is defined as "often a separate entity established as a joint venture or long-term contract between a ...*
