Nissan Altima service engine soon light came on

"Service engine light", on Altima as well as on most production cars, is a universal catch-all light that comes up in literally hundreds of different situations, ranging from "engine oil level too low" to "a mouse chewed through the wire running to the fuel tank level sensor" (I actually had that last one!)

What causes a service engine light to come on in a Nissan ...

Nissan put 2 catalytic converters in that car with an egr valve between the 2. If you don't get the problem fixed right away, you run the risk of having catalytic converter media (i.e. sand) sucked into your engine which will necessitate a new engine. And BTW, Nissan never issued a recall of that fatal design flaw for the engine.

Nissan Altima Questions - Is this serious? - CarGurus

A flashing check engine light is your Nissan Altima's way of saying "I have a serious problem, don't ignore me". Most of the time, that serious

problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust.

Nissan Altima: Flashing Check Engine Light Diagnosis ...

The "service engine soon" light indicates that the vehicle's on-board diagnostic computer has detected a problem with one of the car's systems. The computer processes input on system operating parameters while the car is active and illuminates the light if they fall outside of acceptable ranges. Advertisement. When the light is on, the computer contains a trouble code that states which system is malfunctioning, which can be read by a handheld reader that plugs into the dashboard.
